BECOME A HACKBEANPOT JUDGE

WHAT IS HACKBEANPOT?

HackBeanpot is the largest non-school-affiliated hackathon in Greater Boston. We bring together students from all backgrounds to learn, build, and connect in a welcoming, beginner-friendly environment.

WHY YOU SHOULD BE A JUDGE

1. Discover creative projects built by student hackers.
2. Connect with students from diverse backgrounds and skill levels.
3. Support beginner-friendly innovation and recognize standout ideas.

YOUR ROLE AS A JUDGE

Speak with teams about their projects, ask thoughtful questions, and evaluate submissions using HackBeanpot's judging criteria. Your scores and feedback will help determine the winning projects.

TIME COMMITMENTS

Final judging session on Sunday • Approximately 2–3 hours
